Directions: Select the one line of code that is written correctly.

Directions: List the three errors in the code below.

Type answer below:

`<p> This is the first paragraph.`

`<p> This is the second paragraph. <p>`

`</p> This is the third paragraph. </p>`

Directions: List the three errors in the code below.

Type answer below:

```
<h1>Outer Space <h1>
```

```
<h2 Planets</h2>
```

```
<h3>Mars <"/h3">
```

Directions: Select the one link that is written correctly below.

`<link href = "mystylesheet.css">`

`<link rel= stylesheet href = "mystylesheet.css">`

`<link rel= "stylesheet" href = "mystylesheet.css">`

Directions: List the three errors below.

Type answer below:

```
<ol>  
  <li cats</li>  
  <li>dogs</li>  
  <li>monkeys<li>  
</ul>
```

Directions: Add the missing tag where it belongs. There is only ONE!

<!DOCTYPE html>

<html>

<head> </head>

<body>

<h1> hello </h1>

</html>

Directions: Add the missing tag where it belongs (there is only one)

Monday

Tuesday

Wednesday

** Thursday**

Friday

Directions: List the mistake in the code.

```
<!DOCTYPE html>
```

```
<html>
```

Type answer below:

```
<head> </head>
```

```
<body>
```

```

```

```
</body>
```

```
</html>
```

Directions: One tag is in the wrong place. List it and tell me where it should go.

Type answer here:

```
<ol></ol>
```

```
  <li>Tilted Towers </li>
```

```
  <li> Paradise Palms</li>
```

```
  <li>Loot Lake </li>
```

Directions: Select the one link that is written correctly below.

`<p> My favorite color is blue<p>`

`<h1 My Favorite Color </h1>`

`<h2> My Favorite Color </h2>`

Missing Heading and List HTML Tags

Name:

Directions: **Fill in the blank HTML tags.** Then answer the questions.

```
<!DOCTYPE html>
<html>
  <   >
</head>
<body>
  <h1> Biggest </h1>
  <h2> Big <   >
  <   > Medium Big </h3 >
  <h4> Medium Small </h4>
  <   > Small <   >
  <h6> Smallest </h6>
  <p> HTML has six different
    heading sizes. <   >
  <h2> Lists in HTML </h2>
  <ul>
    <li> This is a list. </li>
    <   > It will have bullet points. </li>
    <   > There are also numbered lists. <
    <li> Lists are useful. </li>
  </   >
  </   >
</html>
```

1. What tag do you think needs to go at the beginning and end of the entire list?
2. What tag needs to go around each item in a list?

Directions: Consider the website below and what tags might be required to make it.

March Madness

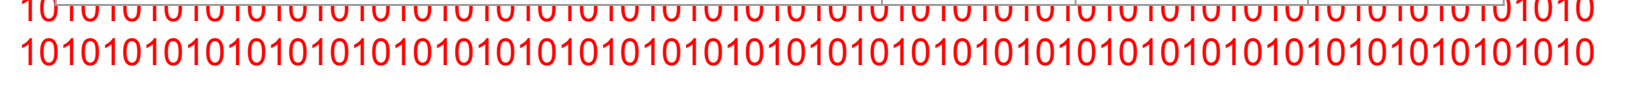

A History Lesson

- The first NCAA Tournament was in 1939.
- There were only 8 teams.
- Oregon was the first champion.
- UCLA has the most championships with 11.

<!DOCTYPE html>	</html>	</body>	
The first NCAA Tournament was in 1939.			
alt="basketball picture"	<h3>	<head>	<h1>
There were only 8 teams.	</h3>	March	<body>
Oregon was the first champion.			</h1>
A History Lesson	</head>		/>
UCLA has the most championships with 11.		Madness	
<img src = "bball.jpg"		<html>	

Use the code provided on page 16 to create the example website located on page 15. All the code you need is provided for you. You will have to put it in order.

Hints: When you open a tag, remember to close it. Feel free to use code.org for reference or to refresh your memory. Also- see reference sheet on the last page of this packet.

HTML Structure Reference Sheet

```
<!DOCTYPE html>
```

```
<html>
```

```
<head>
```

```
</head>
```

```
<body>
```

```
<h1> My Hobbies </h1>
```

```
<h2> Soccer </h2>
```

```
<h4> 5 years </h4>
```

```
<p>Soccer is an awesome sport because you get to play on a team with all your friends. I love challenge of learning new skills like headers and corner kicks.</p>
```

```
<h2>Baking</h2>
```

```
<h4> 10 years </h4>
```

```
<p>I love baking because you put together all these things that look simple and boring on their own to make something magical and delicious. I also love how baked things make people happy. Sharing things I bake might be the best part of it!</p>
```

```
<h2>Drawing</h2>
```

```
<h4>2 years</h4>
```

```
<p>On the weekend sometimes I got outside and try to draw what I see. My favorite thing to draw are buildings. </p>
```

```
</body>
```

```
</html>
```

Example of what the reference sheet code would look like

My Hobbies

Soccer

5 years

Soccer is an awesome sport because you get to play on a team with all your friends. I love challenge of learning new skills like headers and corner kicks.

Baking

10 years

I love baking because you put together all these things that look simple and boring on their own to make something magical and delicious. I also love how baked things make people happy. Sharing things I bake might be the best part of it!

Drawing

2 years
